1 LINE SYMMETRY PICTURE CASTLE

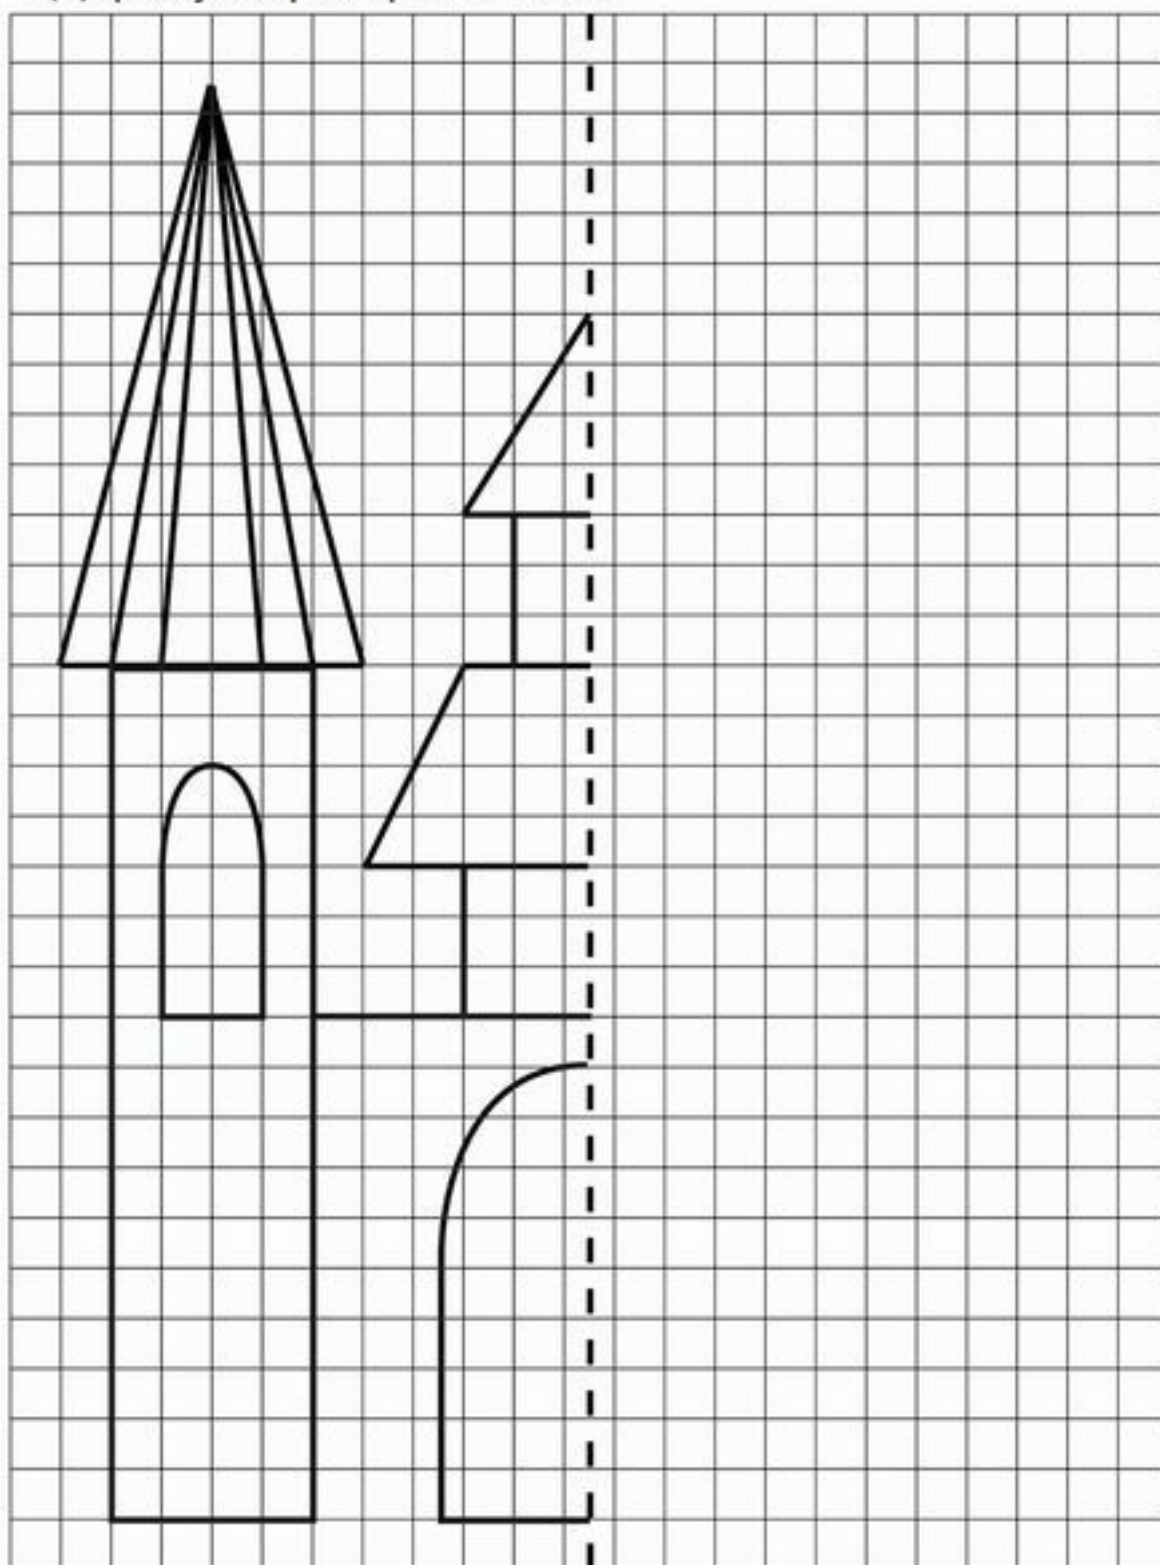

The grid consists of 20 columns and 20 rows of dots. A vertical line of symmetry is drawn through the 10th column. On the left side of this line, a castle is drawn. The castle has a base that is 10 units wide and 1 unit high. The left wall is 10 units high. The right wall is 10 units high and has a window that is 3 units wide and 4 units high. The roof is 10 units wide and 1 unit high. The castle is drawn with a vertical line of symmetry through the 10th column. The right side of the grid is blank for drawing the mirror image.
